Complaint Allegations

If a program disagrees with a licensing finding, the program may request a review of the finding(s). Ohio Administrative Code 5101:2-12-03 and 5101:2-13-03 detail the process for submitting a request for review. The request for review must be submitted within seven business days from the receipt of the licensing report. In addition, if the program is star rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.

Domain:02 Safe & Sanitary Environment

Rule: 5180:2-12-13 Sanitary Equipment and Environment
Code: The program is required to be kept clean to prevent an infestation of insects or rodents.

Allegation: The complainant alleged that the program did not prevent an infestation of insects.

Determination: Substantiated

Findings: During the inspection, it was determined the program made a temporary window repair which allowed insects into the classroom. The insects were not exterminated in a timely manner. Once exterminated, cleanup was not properly performed to maintain a clean and healthy environment, as required. Submit the program's corrective action plan, which includes a statement that future temporary repairs will ensure that insects are not able to enter the classroom and staff have been retrained on cleaning and sanitizing procedures, to the Department to verify compliance with the requirements of this rule.

Risk Level: Low

Corrective Action Plan Due: 07/04/2026
