Summary of Non-Compliances

If a program disagrees with a licensing finding, the program may request a review of the finding(s). Ohio Administrative Code 5180:2-12-03, 5180:2-13-03, 5180:2-19-10 and 5180:2-20-02 detail the process for submitting a request for review. The request for review must be submitted within ten business days from the receipt of the licensing report. In addition, if the program is Step Up To Quality rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.

Serious Risk Non-Compliances

A serious risk non-compliance is a licensing rule violation that has the potential to lead to a great risk of harm to a child and is observable and/or based on facts.

Rule: 5180:2-12-25 2026 Medication Documentation

Requirement: The program is required to obtain parent permission and retain current documentation to administer medications. The program is required to administer medication only if it has the prescription label attached or had written instructions from a licensed physician. The program is also required to have each medication to be administered stored in its original container.

Finding: During the inspection, it was determined the program did not meet the requirement for administering a medication to a child.

The following was observed: Written permission from a parent was not on file for medications to be administered to 2 children and physician instructions/ care plan instructions were not updated for 2 different children as required by rule.

Submit the program's corrective action plan, which includes the completed written parent permission for each child needed, record of medication administration, verification that the prescription label is now attached, and/or verification that the medication or product is now in its original container, and a statement that training was provided, to the Department to verify compliance with the requirements of this rule.
